

Attaching a free kindy bag tag

Reminder bag tags are not a toy

#1

Locate a visible and secure attachment point on bag

#2

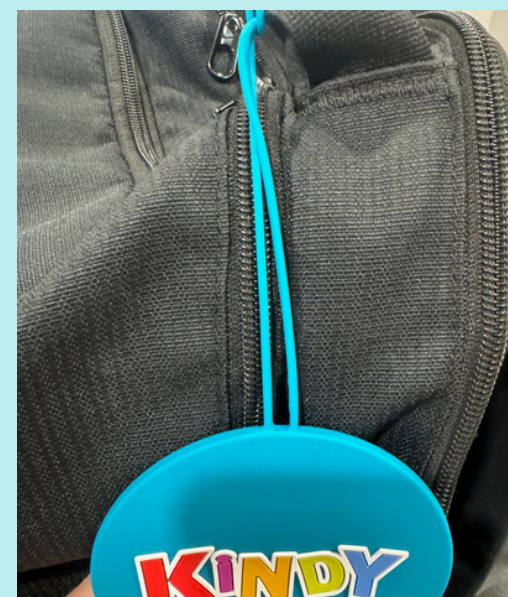

Thread loop through attachment point

#3

Thread the body of the tag through the loop and pull

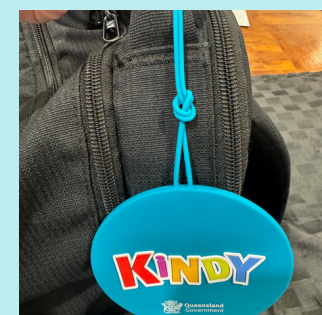

#4

Once the loop is threaded through the attachment point, pull it securely

Adjust loop length and extra fastening

If the loop is hanging too loosely, adjust its length by opening the loop, tie an extra knot to suit the bag size. This will provide extra fastening.
